

Chromebook Keyboard Shortcuts

Caps Lock

The Chromebook has a different keyboard than the usual PC keyboard that you may be accustomed to using. One of the keys that you don't have on a Chromebook is Caps Lock.

You can use the keyboard shortcut **Alt – Search** to toggle Caps Lock on and off.

Map of Keyboard Shortcuts

You can press **Ctrl – Alt – ?** to see a map of keyboard shortcuts on your Chromebook screen. Press **Escape** to hide the map.
